Emma Hand

BDS (UK)

Information for Patients

Emma graduated from Newcastle dental school in 2000. Following a year's postgraduate vocational training, Emma developed her skills working in a vibrant general practice in Newcastle.

Over a 10 year period, Emma provided high quality NHS and private care to patients.

After moving to Manchester for three years with her young family, Emma took the opportunity to study for an extra two years at Paul Tipton's Training Academy.

This postgraduate education focuses on advanced theoretical and practical skills in the provision of high quality dentistry. As part of this training, Emma received advanced training in cosmetic techniques, Veneers, Crowns, Bridges, Dentures and Root Fillings.

Armed with these skills, Emma has been enjoying providing these techniques for her patients in Manchester and now patients of the Tyne Valley can benefit too.

Emma also has a keen eye on facial aesthetics and is trained in facial rejuvenation procedures using wrinkle-relaxing injections and dermal fillers.

Outside of work, Emma enjoys spending time with her family, playing tennis and dining out.
