Jim Sykes

BDS (UK), Dip ConSed

Information for Patients

Born in Bolton in 1974, Jim first came to the North East to study dentistry at Newcastle University in 1992.

Graduating in 1997, Jim further developed his dental skills by undergoing a further 2 years General Professional Training, working with consultants at Newcastle Dental Hospital in all available dental specialties.

Most of Jim's professional career was spent at Queensway Anxiety Management Clinic in Teesside – A twelve surgery sedation referral centre.

Jim spent most of his time in Teesside developing sedation skills and achieved his diploma in conscious sedation in dentistry with merit in 2002.

After devoting most his time to treating anxious children and adults, Jim developed his cosmetic dentistry skills.

Cosmetic dentistry is close to Jims heart, having broken his front teeth at the tender age of 7, Jim has firsthand knowledge of how important a confident smile can be to how we feel as individuals.

Jim further developed his cosmetic dentistry skills with a yearlong course in Manchester and numerous one day seminars and hands-on courses in subjects such as toothwhitening, veneers, bonding and white fillings.

After purchasing Hexham Dental Clinic in 2007, Jim feels he has now found home and is thoroughly enjoying the friendliness of the Tyne Valley.

Outside of work Jim is a proud father of three beautiful girls and loving husband of 10 years.

Time permitting he enjoys golf and is a keen music producer, having had commercial success over the last 5 years with releases on the international Cafe Del Mar Ibiza chill-out albums.
